- Open Vulnerability and Assessment Language - Element Dictionary

- Schema: Apache System Characteristics
- Version: 5.2
- Release Date: 31 January 2007

The following is a description of the elements, types, and attributes that compose the Apache specific system characteristic items found in Open Vulnerability and Assessment Language (OVAL). Each item is an extension of the standard item element defined in the Core System Characteristic Schema. Through extension, each item inherits a set of elements and attributes that are shared amongst all OVAL Items. Each item is described in detail and should provide the information necessary to understand what each element and attribute represents. This document is intended for developers and assumes some familiarity with XML. A high level description of the interaction between the different tests and their relationship to the Core System Characteristic Schema is not outlined here.

The OVAL Schema is maintained by The Mitre Corporation and developed by the public OVAL Community. For more information, including how to get involved in the project and how to submit change requests, please visit the OVAL website at http://oval.mitre.org.

< httpd_item >

The httpd item holds information about a installed Apache HTTPD binary. It extends the standard ItemType as defined in the oval-system-characteristics schema and one should refer to the ItemType description for more information.

Child Elements	Type	MinOccurs	MaxOccurs
path	oval-sc:EntityItemStringType	0	1
binary_name	oval-sc:EntityItemStringType	0	1
version	oval-sc:EntityItemStringType	0	1

< version_item >

This item has been deprecated. It will be removed from the next major version release (6.0) of the OVAL Schema. It has been replaced by the httpd_item.

The version item holds information about the version of Apache installed on the system. It extends the standard ItemType as defined in the oval-system-characteristics schema and one should refer to the ItemType description for more information.

Child Elements	Type	MinOccurs	MaxOccurs
